COAST CLIPPINGS.

On last Friday night 850 more Chinamen landed in San Francisco.

Philip Thorp, of Beaverhead county, Montana, sold lately 400 sheep at \$5 each.

Dakin & McClellan are building a new flour and feed mill at Susanville, California.

The Mormon Church held on the 6th instant their 52nd annual meeting of the faithful.

Luning, on the C. & C. Railroad, is very lively. Prospectors are flocking in from all quarters.

About 200 men have been at work since December last on the mines at Wood River, Idaho.

A new company for the manufacturing of Giant powder, is organized at Silver Bow, Montana.

Charles Hudson and Cornelius Leary were injured at the Idaho mine, Grass Valley, Cal., on Friday last.

The new town of Butte, in Pinal county, A. T., is situated on the Gila River fifteen miles from Pinal.

The sawmill at Ainsworth, W. T., has 9,000,000 feet of logs on hand to cut, from the Yakima region.

H. P. Stone, of Santa Barbara, Cal., has bought 100,000 gum trees for planting on his land next winter.

The Modoc Independent says that John Jackson is now feeding 2,000 head of cattle in Goose Lake Valley, Oregon.

The farmers on the river south of Redding, Cal., report the young grain looking well, but in need of a little more rain.

During March the real estate transactions in San Francisco figured up \$1,274,682, representing the sale of 214 parcels.

Last week a band of cattle was driven out from the Mattole Valley, Humboldt county, for which the price of six cents was paid.

Columbia County, Cal., will have a large fruit crop. Pear and plum trees are in full bloom; apricot and peach are injured slightly by frost.

John Newberry has purchased in Umatilla and Grant counties, Oregon, for a cattle firm in the East, 28,000 head of cattle, and is still buying.

The total value of the silver produced by the Northern Belle mine, Candelaria, in March is \$67,398. The sum of \$25,000 goes for account of dividend.

The Stock Growers' Association met in Cheyenne last Wednesday, and reported that stock was never in such good condition at this season of the year.

The Empire Foundry at Marysville, Cal., is filling an order for hydraulic mining machinery, to be shipped to the United States of Columbia, South America.

The stage which runs between Big Timbers and Gage, M. T., was ascending the steep hill bordering Sweet Grass canyon, the horses gave out and backed over the precipice, which is about 1000 feet high. A pine tree about twenty-five feet below the brink of the precipice stopped the stage, and the passengers escaped unharmed, except that the collar bone of one of them was broken.

Wm. J. Smythe resides at No. 1506 N. Seventh street, Philadelphia, Pa., and is well known in journalistic circles. He writes: I had an attack of rheumatism in both of my knee-joints, and for several days I was almost cradled with the intense pain caused by the disease. To sleep was out of the question. I would lie in bed all night awake, and the slightest motion then would produce such sharp pains in my knee-joints that I would actually scream out. I had to come down stairs one step at a time, and it was difficult for me even to limp about the house, and I found it impossible to attend to my business. Nothing I could do relieved me of the intense pain, although I tried everything I heard of; but a friend came in one day, and said, "Why don't you give that St. Jacob's Oil a trial?" I resolved to, and sent for the bottle. Almost as soon as I commenced rubbing with the Oil I felt a slight relief of pain and a peculiar tingling sensation in my knees, and the more I rubbed the better I got. By the time I had used up one bottle I felt so much better that I could walk without difficulty, and I can truly say as I sit here that by the time I had consumed two bottles I was entirely cured, and now have not a vestige of rheumatism and have not been troubled with it since I finished up that second bottle of St. Jacob's Oil.

HUB PUNCH TO TOP OFF A DINNER, May be Drank Clear, as a Cordial

For a dinner thoroughly appointed, the good old way was to wash down the last triumphs of the feast with copious libations of old Port and Golden Sherry; but "HUB PUNCH" has added a new sensation to the epicure. Its delicacy, aroma, flavor, and delicious, but gentle effects, proclaim it the nectar fit for the gods banqueting on Olympus.

Mix HUB PUNCH with Ice Water, Cold Tea, Lemonade, or Soda. It is unanimously pronounced unrivaled.

TESTIMONIALS.

"A tip is like a drop of water; 'Delicious beyond description.' - Boston Freeman."

"Added to the good things of the table, it encourages good nature." - Springfield Republican.

"Invaluable for a little treat when a friend drops in." - New York Evening Post.

"Many people lack the snob's flair to brew Punch. But HUB PUNCH is proportionate wherever known." - Spirit of the Times, N. Y.

The popularity of Hub Punch is rapidly spreading, and sold within three months a larger quantity than anticipated selling in twelve." - SMITH & VAN DERBEEK, New York and Chicago.

SUSPENSION OF THE "NEWS."

Gold Hill without the News is no town at all. We sincerely regret to publish the following, taken from that paper of Saturday evening:

"Owing to the great depression in business interests of this town, the stagnation of mining industries in this district and unfavorable prospects for the near future, the 'News Publishing Company' has decided to suspend further publication of the Gold Hill News until July next."

The News has always been a valued exchange, and we are sorry to lose it, even for three months.

EDITORIAL NOTES.

The oleomargarine problem has got into Congress, and legislation is being urged for the protection of the legitimate butter trade, as the rapid increase of bull-butter factories seriously threatens the dairy interests. In New York alone there are manufacturers and material enough to produce 116,000,000 pounds of oleomargarine annually, while the entire butter product of the State is but 111,000,000 pounds. Oleomargarine can be produced for nine cents a pound, and consequently when sold in imitation of butter will drive the genuine butter out of the market. At present it is not and can not be sold as oleomargarine or as a substitute for cheap butter, but is sold in imitation of and under pretense of being butter.

Because the U. S. Treasury is in a healthy condition, there is much talk about how much the country needs a powerful navy. The necessity for a fleet of war-ships is not apparent. A few swift dispatch vessels with two or three respectable ships on foreign stations is all that is needed at present. Nations, like men, are prone to court trouble when they are in condition to become aggressive.

The Examiner remarks: If 100,000 Americans were employed in this State instead of 100,000 Chinamen, what a difference there would be in the prosperity of the State! There would be 100,000 families, which would mean an average of 500,000 souls, and that in its turn would mean prosperity in all our borders.

The San Francisco Stock Exchange's grammatical remarks: Three degrees of mining speculation—positive, mine; comparative, miner; superlative, minus.

The wires East went down again this morning. Our dispatches to-day are interesting, but not as complete as usual.

Violators of the Sunday Law.

SAN FRANCISCO, April 9.

There were no squads of police out-to-day taking testimony against violators of the Sunday law. There are over one thousand cases already to be tried in the Courts of the city, and the authorities concluded further arrests useless, until some disposition is made of the cases now on the docket.

Train Robbers Make a Haul,
DALLAS, TEXAS, April 8.
The north-bound train on the Gulf, Colorado and Santa Fe Railroad was robbed a few miles south of Sieburn at 10 o'clock Friday night at a station called Blum. Six men wearing masks and roughly dressed, entered the passenger coaches. Two took position and guarded the doors at either end, the other two going through the car with cocked pistols, one carrying a pillow slip, ordering contributions to the "missionary fund." All the passengers gave up money. When they were about through with the passengers, the conductor entered the car and seeing what was up rushed for the express car. One of the robbers fired at him, but he escaped unhurt, the ball passing through the express car door. All the robbers then jumped off and disappeared. The amount secured is not known. Several parties gave up large sums. One of the passengers says the robbers got about thirteen hundred dollars; others say not over four hundred or five hundred. The officers were notified at Fort Worth, and a posse of men with blood-hounds was put in pursuit. No arrests are reported yet. It is thought this is the gang who attempted to wreck the north-bound night train three weeks ago, by removing a rail. The authorities suspect certain parties, green hands at the business, and will endeavor to secure their arrests. They used old cap and ball Navy revolvers.

Lightning and Wind—Fatalities,

TOPEKA, April 8.
News comes from various portions of the State relative to the high winds on Wednesday evening. The house of Tom Perry, 12 miles northeast of Abilene, was struck by lightning and the son of Mr. Perry killed. The same storm blew down a wind-mill tower in the neighborhood, and a number of houses in different parts of the country. Other persons are reported killed, but there is nothing positive about it. At Chapman, in the same vicinity, a Methodist church was completely demolished. At Manhattan the storm last night tore the roof from the Methodist Church and blew down numerous chimneys. In this city there was heavy rain, but no winds. Rev. Isaac Fulmer, residing in Homer Township, Midland county, Michigan, was killed by a tornado Thursday evening. A house was demolished and several other persons killed in the neighborhood. The storm swept through several townships in Bay county, doing great damage to property.

Bond Robbers Foiled.

NEW YORK, April 8.
Two men attempted to sell this afternoon at a brokers office bonds of the city St. Joseph, Mo., to the amount of \$100,000, for 80 cents on the dollar. As the bonds are only negotiable for other bonds the transaction excited suspicion, and the men were handed over to the police, where they gave the names of James Irving and Joseph Fisk. The bonds were examined by the financial agent of the City of St. Joseph, and found genuine. They are supposed to have been stolen. The prisoners were arraigned at the Tombs police Court, where McDonald, agent for the bonds in this city, appeared to prosecute them.

The Banco Sharps.

BOSTON, April 9.
The Grand Jury has indicted James Fitzgerald, alias Morrison, for the larceny of three checks, representing \$20,000, from Charles Francis Adams, and for conspiring with two other parties, not yet arrested, to defraud Adams. Fitzgerald was held in \$25,000. Adams is not able to give additional information concerning the location of the house where he went with his young friend, nor what took place there. He has no remembrance of any cards, and insists that he did not sign any check, though he says there were pieces of paper and money passing back and forth among the men.

Blister Laborers.

FORT PLAIN, N. Y., April 8.
About 400 Italians, who have been at work here on the West Shore Railroad, not getting their pay to-day as expected, congregated around the Zoller House, where the contractor is stopping, and commenced stoning and firing into the house. The Grand Army post was called out and dispersed the rioters, but not before they had done considerable damage. Some of the inmates of the hotel were seriously injured. Three of the Italians were wounded by pistol shots fired from the house. More trouble is feared to-night. The Italians have threatened to burn the town. Help has been asked for from neighboring towns.

FOREIGN

Smythe, the West Meath landlord who, while returning from church last Sunday with some ladies was fired at, but who escaped, while one of the ladies was killed, has written a letter to Gladstone, in which he says: "Your practical adhesion to the principle that force is no remedy in the case of Irish savagery, has culminated in making it easy for a land-league assassin to murder my sister-in-law at noonday. I lay the guilt of that deed of blood at your door, in the face of the whole country." Gladstone, in replying, assures Smythe of his heartfelt sympathy, and is confident that Smythe will readily understand why he does not notice his charges. Major

Frail, a Magistrate, writes from Mayo, recommending that certain death shall be the penalty of all attempts at murder. He says he has often been threatened, and has been warned that his assassination was not only planned, but actually paid for; but he defies assassins. He draws a remarkable picture of the state of the country. He says he never travels without an escort of two policemen and an armed groom. Counting the Winchester rifles, the revolvers and shot-guns of the party, there are 25 rounds that can be discharged in as many seconds with 34 in reserve. His escort search all plantations, hedges, etc., on the route, and the neighborhood of his house is patrolled all night by an armed guard, who are provided with dogs to aid in the search for explosives and assassins.

Murder and Robbery.

SAN FRANCISCO, April 10.

A cable dispatch says: The British Government never admitted nor understood the American Government to claim that it had the legal right to interfere. The Government would resist such a claim if it was advanced. It is believed here that the American Government expressly or tacitly admitted that Americans living in Ireland violating the law were subject to the same penalty as Irishmen; but when the American Government urged the release of American suspects on the grounds of expediency, the British Government showed an immediate readiness to listen to the various proposals. The British Government finally agreed to release all who would promise to leave the country. If any Irish Americans remain in jail they remain because the Land League wants them to remain. There are some suspects, who, in obedience to the orders of the League, refuse to go out of the open door. The Parnellites were disappointed that any Americans should have accepted the Government's terms. The general condition of Ireland convinces Liberals and Conservatives alike, of the necessity of fresh measures. Even the Radicals, though alleging the failure of the Coercion Act, admit that more efficient coercion is necessary.

Death in the Pulpit.

SAN FRANCISCO, April 9.

Rev. L. Hamilton, aged 60 years, pastor of the Independent Church at Oakland, died suddenly this forenoon while preaching. During the discourse he paused, and, sinking slowly in the pulpit, died in a few moments. Deceased leaves a wife and two children. The cause of his death is supposed to be heart disease. About eight years ago he withdrew from the Presbyterian Church and established what is known as the "Independent Church." He was well known on the coast.

After the Heathens

SAN FRANCISCO, April 9.

At a meeting of the Trades Unions calling for a general convention to be held at San Francisco, April 24th, for the purpose of devising some plan to rid the community of the presence of Chinese, it was resolved that a suitable call be prepared and addressed to the people of the Pacific Coast States and Territories, inviting them to join the Trades Unions in their endeavor to rid the country of the obnoxious heathen.

Important Mining Decision.

SAN FRANCISCO, April 10.

In the case of the Concordia Mining Company vs. Addenda Mining Company, pending in the United States Circuit Court, Judge Sawyer this morning rendered a decision in favor of the Concordia company for all the ground in dispute. This practically wipes out the south half of the Addenda location.

DIED.

VAILLANCOURT—In Reno, April 8, 1882. Mrs. L. B., wife of Firmin Vaillancourt, aged 72 years, 3 months. Friends and acquaintances are respectfully invited to the funeral, Wednesday afternoon, at 2 o'clock, from her late residence.

Yesterday the home of Mr. F. Vaillancourt was made desolate by the loss of its richest treasure. The wife and mother was taken away, and the husband and five daughters (the eldest Mrs. Willett, who resides in the eastern part of the State, and the youngest a wee babe, a little more than a week old,) are left to mourn her loss, with a large circle of loving friends. For several days her illness had been considered dangerous, but it was not realized that her death was so near. Yet when her spirit had fled, many hearts were deeply pained as they gathered around her dying bedside, with the broken-hearted family, in their grief in the loss of their best earthly friend. It was, indeed, a sad hour in that household, and one never to be forgotten. For she was a loving wife and dear mother, and she was leaving a tender charge, which will always miss her until they are re-united on the other shore. But he who cares for the afflicted ones will visit them in their deep sorrow.

"They will be done." How hard to say when those we love are called away. How hard to stay the falling tear, or let faith's star the future cheer. For home is lone. Without a mother's love Naught comfort brings but hope of bliss above.

Personals.

Chancellor Derby went to the Bay last night.

JAMES McMECHAN came up from San Francisco this morning.

Colonel A. C. Ellis, Carson, went to Stillwater this morning.

W. E. F. Deal, Virginia, is attending to law matters here to day.

Critt. Thornton, the lawyer, went through to Carson on Saturday.

GUY THORPE, Secretary of the State Line miners at Gold Mountain, went west on Saturday night.

J. MINOR TAYLOR, accountant of the Bonanza firm in Virginia, was a passenger for San Francisco on Saturday evening.

Chief Justice O. R. LEONARD, of the Supreme Bench, Carson, and John Gillig, hardware merchant of Virginia, were arrivals from San Francisco this morning.

E. DODGE, Committee Clerk of the late Legislature, formerly of Eureka, but now practicing law at Susanville, Lassen County, Nev., paid Reno a flying visit on Saturday.

Arizona Society.

Ex-Senator Wm. M. Stewart went through to Eureka yesterday. He has been living in Arizona for much of the past year. He says the disorderly element is growing stronger and more desperate, that, instead of being wiped out, Texas and New Mexico have adopted stronger measures and driven out many who have congregated in Cochise county, where Tombstone is situated, and they are making it very troublesome. It is impossible to keep a cow or horse, except under lock and key, or guarded. There is probably a hundred of the gang, but if fifteen or twenty were taken out there would be no organization left. The newspapers are very cautious, and the outside public are not aware of the reign of terror which exists. He thinks things cannot last long as they are now. True it is the man for the occasion, and if the people will sustain him, and the government give him means, he will soon settle it.

Bad Roads.

A teamster informed a GAZETTE reporter this morning that the roads between here and Honey Lake are in an execrable condition, being nearly impassable by reasons of wash-outs and sink-holes. In some places travel is not only difficult, but decidedly dangerous, and if repairs are not made soon, it will require a great deal of work to put the road in even a tolerable condition.

Board of Pardons.

A GAZETTE special from Carson says the Board of Pardons refused the application of John Curran.

The application of Squares, one of the Verdi car robbers, was granted. The Verdi robbers have all been liberated now with the exception of Tilt Cookrell, who is still held.

The New Cracker Factory.

The machinery for the cracker factory has arrived, and will be set up as soon as the masons have finished the new ovens and foundations.

OVER WHICH ROAD?

The Disappointment Felt at the Loss of the Bidwell Mail Route.

Mr. Cressier, of the firm of Cressier & Bonner, Cedarvale, favored the GAZETTE office with a pleasant call this morning. It is his opinion that the change of the mail route will be quite a severe blow to the prosperity of the country north, as well as Reno. He says it will make a great difference to the barley and hay market up there, as well as to inconvenience travel traffic and correspondence. It virtually cuts off Reno, because no one could think in these times of waiting a week for his mail. In point of quick freight it works another hardship on the citizens of Surprise. The stage line has been hauling goods up for four cents a pound, to regular customers, and six cents for little transient parcels. Quite a business has been built up in this way, most of it consisting of goods purchased of Reno dealers. Of course this stops now, and there is no way to build it up by the other route, for Wells, Fargo, & Co.'s rates from Redding to Alturas are ten or twelve cents per pound, and the line over the hills gets two cents more. There is very little hope of overcoming the determination of the department, and no daily mail is likely to run from here again until there is a railroad. During the happy days of Brady the

MATTER WAS RATHER OVERDONE, And now there is a strong reaction. The route from Redding to Lakeview was made tri-weekly, and then daily, and that from Bidwell to Reno the same, at double what they should have been paid. A line was put on, connecting Susanville and Alturas, and one from Susanville to Big Valley. The cutting now begins, and the weaker goes to the wall. Congressman Berry pulls for Redding, and gets George, of Oregon, and probably Rescorans to help. By the Redding route several large towns are served, such as Millville, Adin, Bieber, Fall City, Pittville, Burgettville, Alturas, Willow Ranch, Big Pineville and Lakeview. If the routes were equally good this population would seem to favor the Redding route if there is to be only one into the country, but the way the snow blockades that line and makes it impassable for half the year overcomes all other benefits and leaves the people mailless. By the Reno route the trains favor quick transit. There is a long delay at Sacramento and Roseville Junction, so that mail leaving California one day leaves Reno the next day before it gets started from Roseville to go to Redding.

Prices of Provisions and Lumber at Woodriver, I. T.

Flour is selling at \$6.50 per 100 lbs.; potatoes 7 cents per lb.; fresh beef, when the butchers have it, 15 to 20 cents; beans 12½ cents; bacon and ham 25 cents; butter 62½ cents; sugar 25 cents; coffee 33½ cents; canned vegetables and pie fruits \$3.50 a dozen; table fruits, jams and jellies, \$4.50 per dozen; and a mining camp's chief staple, whisky and beer, 12½ and 25 cents per glass. Board is reasonable, \$8 per week. Lodging 50 cents and \$1 a night. Comfortable furnished rooms can be rented for \$20 per month.

Native lumber sells readily at \$40 per \$1,000 feet, delivered; shingles, \$7 per 1,000, and nails 12½ cents per pound.

Grooming Horses by Steam.

In the Eastern States a novel machine for grooming horses, operated by steam, horse or hand power, has been lately introduced into use, which does its work very perfectly. From ten to fifteen horses per hour can be very completely cleaned, and the horses make no objection to the operation. The machine is said to be better than a broom, because it does its work better. It is a swiftly revolving brush, something similar to that in use in some barber-shops, and when in operation looks as if it were first cousin to a buzz saw.

District Court.

The following cases were before Judge King, of the District Court to-day:

E. Olinghouse vs. W. Raphael, on trial without jury.

Hatch vs. N. & O. railroad company, set for this afternoon to Ju-

James Sullivan was excused as juror until the 17th instant and B. Coffin until the 13th instant.

D. Huffaker, C. W. Eaton, Wm. Wright and P. Mathers were excused for the term.

T. P. O'Conor, M. P.

The Irish orator and advocate for Irish rights, spoke last evening to a crowded house in Virginia City, and arrived here this morning with four-in-hand, accompanied by T. Hayes, of Hayes & Nevin, M. O'Hara, and Miles Finlen. The distinguished traveler went east by the morning train, direct to Chicago, where he will speak, and afterwards fill some engagements in New York and Washington. He will sail at an early date for Europe, and take his seat in Parliament.

The Weather.

The prognostic of the Signal Service folks seems about to be verified. They have been hatching up a storm, for the past week, and the appearance of the mountains and fitful spits of now denote that something is about to happen.

REVOLVING PRAYERS.

The Chinaman's Faith in Machine Religion.

A GAZETTE reporter yesterday saw a Chinese device for grinding out prayers, which might be adopted by lazy sinners of other nationality—it would be better than not to pray at all. A crowd of chattering Chinamen were standing alongside the ditch which takes water to the flour mill. Across the ditch was a pole, its ends resting in bearings made of stakes driven into the soil. In the middle of the pole joss-sticks of many colors were inserted at right angles, like the spokes of a wheel, the lower ends touching the water, which caused the contrivance to revolve swiftly. As one spoke after another entered the water and appeared on top, some one of the crowd would emit a heathen grunt and clap his hands. Occasionally a spoke would break. Then the air would be filled with angular sounds until a grotesquely arrayed Celestial had repaired the damage. Every stick in the wheel was a prayer to Joss, maybe he ranks as America's greatest poet and as the coming playwright. His poem on Walker is the finest of his works. Mr. Wilde thinks the man's private life has nothing whatever to do with our estimate of his work. If it is strong, good and beautiful, as he claims it is, the poet should be honored and enriched. The estimation in which great men are held is the standard by which he judges a community, and in that respect the coast is behind the East and the East far behind the old country. Speaking of the Press of America, Mr. Wilde said it was full of rubbish. He saw the New York papers, and it seemed that if people read them and were satisfied with them that this must be a nation of lunatics, but he found that an enormous gap lay between the papers and the people, who were bright, intellectual and imaginative. He was even more unfavorably impressed with the papers of the Pacific Coast. He says the East is ugly, but California is very pretty and Nevada by no means uninteresting. He begged of the GAZETTE man to refrain from painting the rocks with advertisements, which he held to be a high crime against the beauty of any country.

Cattle Notes.

Four car-loads of cattle went through yesterday for Dean & Evans, Stockton, and seven car-loads for Dunphy & Hildreth, San Francisco. To-night the shipments from here will be 17 cars, namely: One car for Sacramento; ten cars for Hayes, Carrick & Co., Oakland; and six cars for Murphy & Horn, San Francisco. Four hundred heads of fine Stein Mountain stock left Winnemucca yesterday in a special train for Hayes, Carrick & Co., at Oakland.

Sent Up.

In Justice Young's Court this morning Patrick Flannigan and Richard Price were called up for sentence, having been convicted on Saturday of disturbing the peace and making themselves obnoxious to quiet citizens generally. They were fined \$15 each, but the demands of the Court being too much for their pecuniarity, they were sent to the County Jail for eight days, and will no doubt be assigned to Bailey's brigade of sappers and miners.

THE APOSTLE AGAIN.

Mr. WILDE GOES EAST ON EASTER. He is a Lover of Joaquin Miller.

A GAZETTE reporter rode a ways on the train yesterday morning and, a good opportunity offering, applied the screws to Oscar Wilde, who was a passenger, and found that he was highly pleased with his visit to the coast. He said the people were charming, but they were in danger of defying money instead of allowing the love of beauty and the enjoyment of art to share their affections. He says California audiences are delightful ones both to talk to and to look at. His greatest complaint, however, is that people here do not appreciate Joaquin Miller, whom he ranks as America's greatest poet and as the coming playwright. His poem on Walker is the finest of his works. Mr. Wilde thinks the man's private life has nothing whatever to do with our estimate of his work. If it is strong, good and beautiful, as he claims it is, the poet should be honored and enriched. The estimation in which great men are held is the standard by which he judges a community, and in that respect the coast is behind the East and the East far behind the old country. Speaking of the Press of America, Mr. Wilde said it was full of rubbish. He saw the New York papers, and it seemed that if people read them and were satisfied with them that this must be a nation of lunatics, but he found that

Ravages of Wild Animals.
The New York Sun says: The Russian farmer suffers much from the ravages of wild animals among his crops and live stock. By imperial decree, troops are hereafter to be quartered in localities where this nuisance is especially burdensome, with orders to exterminate the beasts. The double purpose is to be served by this arrangement of benefiting the farmer and of giving the soldier work to do to protect him against the Nihilistic infection.

Dutch Negros.

Berlin has a negro colony of about 60 persons, many of whom emigrated from this country, though others are natives of Africa and arrived direct. With one exception they are all employed as servants. One is a servant to Prince Charles. Many of them have not only acquired the German language, but are said to use the real Berlin dialect. Three have married white girls.

Dairy Produce in America.

The annual dairy product of the United States is estimated at between \$400,000,000 and \$500,000,000, being greater than either that of the wheat or corn crop, and exceeding that of cotton and wool combined.

Pony Breeding.

A ranch of 8,000 acres, located near Bexar county, Texas, is used for the breeding of saddle ponies. There are on the ranch 45 Shetland mares and 100 Zecatecas ponies, all for breeding purposes.

MY DEAR SIR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested have not known what it was to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and am now a well man to-day.
